

15 in 1 Tamperproof Screwdriver

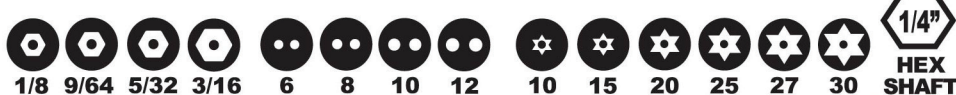

The 15 in 1 Tamper Resistant Screwdriver is ideal for use in the electrical, security, and low voltage industries. It comes loaded with the most commonly used tamper resistant bits, including hex pin, spanner, and star pin and a 1/4" hex shaft driver. It has a rotating balance point collar that helps maintain full contact between the bit and the screw for easier driving.

Features & Benefits

- Retractable bit cartridge
- Palm-Saver Cap™
- Triax® handle
- EZ guide collar
- S2 steel bits
- 8-3/4" handle length
- Spring loaded ball bearing bits
- Full length solid steel shaft
