

6 in 1 Defender Screwdriver

The D61VDE is fully insulated along the shaft and handle and VDE certified to IEC 60900 standards, providing a reliable barrier against electric shock. It's the kind of tool that earns a permanent spot in any electrician's kit — not just because it's versatile, but because it's built to protect.

Palm-Saver Cap™ improves comfort in use

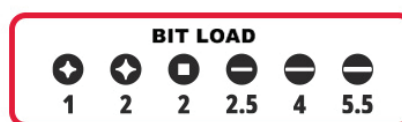

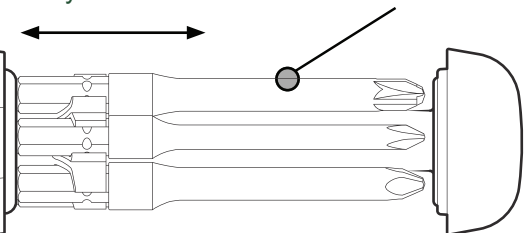

Patented locking collar to secure bits in shaft

Insulated and VDE Certified (1000 V) for safe usage in electrical environments

Retractable bit cartridge for easy bit access

Slim bits for access to recessed screws.
