

MEGABOLT®

The Mega-Bolt anchor is a heavy-duty, single-piece screw bolt that is quick to install, fully removable, and easily identifiable. The unique thread design allows it to be installed with minimal torque and enhances job site productivity. It also eliminates the need for multiple tools and accessories. Simply attach the appropriate socket driver to any powered impact wrench or torque wrench and fasten. Steel threads along the anchor shaft tap quickly into the hole during installation to provide deep thread engagement and efficiently transfer the load into the base material. The reverse serrated teeth on the underside of the hex washer head help to secure the load against the fixture and prevent over-torquing.

Features & Benefits

- Low installation torque
- Removable & reusable
- Easy identification on head
- Dust relief threads
- Specialized heat-treating process
- No washers or hex nuts required
- Reverse serrated teeth on underside of hex washer head
- Proprietary through-hardening process on drill point & threads

Applications

- Cracked and uncracked concrete
- Static loads / seismic loads / wind loads
- Temporary supports / temporary anchoring
- Barriers
- Guards
- Retrofits
- Repairs
- Maintenance

CAT. NO.	UPC	DESCRIPTION	UNIT QTY
CSB14134	85798	1/4" x 1-3/4" Hex Head Concrete Screw Bolt	100
CSB14214	85799	1/4" x 2-1/4" Hex Head Concrete Screw Bolt	100
CSB14300	85800	1/4" x 3" Hex Head Concrete Screw Bolt	100
CSB38212	85801	3/8" x 2-1/2" Hex Head Concrete Screw Bolt	50
CSB38300	85802	3/8" x 3" Hex Head Concrete Screw Bolt	50
CSB38400	85803	3/8" x 4" Hex Head Concrete Screw Bolt	50
CSB12300	85804	1/2" x 3" Hex Head Concrete Screw Bolt	50
CSB12400	85805	1/2" x 4" Hex Head Concrete Screw Bolt	50
CSB12500	85806	1/2" x 5" Hex Head Concrete Screw Bolt	25
