

LEVTECH[®] MAG DOG[®]

ELECTRICIAN'S CONDUIT BENDING LEVELS

Equipped with the market's strongest Xtreme[®] rare earth magnets, the quality of the Mag Dog[®] levels ensure a secure grip on conduits of all sizes. Fully machined from corrosion-resistant aluminum, these levels are designed for enduring performance. Their precision laser etching ensures long-lasting durability. The levels are capable of bending conduit at 0°, 30°, 45° & 90° angles. Enhanced by UV-protected vials, these levels provide clear visibility from multiple angles for effortless reading.

SPECIAL FEATURES

- Xtreme[®] rare earth magnets
- Corrosion resistant aluminum
- Grips onto any size conduit
- Measures bent conduits within a range of 0°, 30°, 45° & 90°
- Permanent laser etching on level
- UV protected replacement vials
- Vials viewable from multiple angles
- Utility & design patented
