

DURA • TOWEL™

Multipurpose heavy-duty towels, tough enough for any job!

Dottie's Dura-Towel™ is a heavy-duty, reusable, and disposable towel used to clean up oil, dirt, grime, grease, and other substances on a wide variety of surfaces. They are manufactured from Hydro-Entangled Fibers (HEF) that blend natural and synthetic fibers for a tear-resistant, durable, and soft cloth-like feel. These low lint towels are inter-folded in a convenient pop-up box that provides portability and protection from contamination. Dura-Towels have superior absorption power and are commonly used with solvents.

Durable Construction

Hydro-Entangled Fibers (HEF) manufacturing blends natural & synthetic fibers for increased strength and tear resistance.

Wet or Dry

Whether you're cleaning up a spill or pairing with a solvent to clean up grease & grime, these towels are the ideal choice for any job across any industry.

Superior Absorption

Designed to absorb liquids, oils, solvents, lubricants, and more.

Reusable & Disposable

When using for light or heavy duty applications you can choose to reuse or dispose of the towels.
