SLOTTED HEX WASHER HIGH HEAD METAL PIERCING SCREW

High Head Sharpeez™ Screws are engineered with an exceptionally sharp point designed to easily pierce thin sheet metal and create their own mating threads with precision. Featuring a heightened hex head for extra grip and superior resistance to stripping, Sharpeez™ Screws deliver fast, reliable fastening performance. Ideal for sheet metal applications, they are widely used in HVAC installations and other demanding metal-to-metal tasks.

Features and Benefits

- Ultra-sharp piercing point
- Double-lead speed thread
- Non-walking piercing point
- Ideal for sheet metal
- Zinc-plated finish

40%* Higher Head
For Extra Grip
