

STEEL SET SCREW CONNECTORS & COUPLINGS

Steel Set Screw connectors and Couplings are used to join EMT conduit together, to a box, or to an enclosure within dry locations. These connectors and couplings are suitable for use in concrete when tapped.

Features & Benefits

- Suitable for dry locations
- UL listed
- Zinc-plated alloy steel is durable and corrosion resistant
- Concrete tight when tapped

Set Screw Compression Connectors

Available in insulated & non-insulated

NON-INSULATED		INSULATED		DESCRIPTION	STD UNIT QTY
