Friction Tape

Friction tape is used to provide mechanical protection against abrasion and penetration of cables, splices and wire. It can also be used as a temporary binding and harnessing tape and contains a multitude of miscellaneous uses. When applied over tool handles, it creates a nonslip surface.

Features:

- Adheres to metal, cable, and wire

Product Dimensions

PN#	Dimensions	Color
860	3/4" x 60' x 15 mil	Black

Performance Data

Property	Value	Test Method
Total Thickness	0,38 mm	ASTM D 4514
Tensile Strength	70 N/cm	ASTM D 4514
Adhesion	380 mm/min	ASTM D 4514
Dielectric Strength	1200 V	ASTM D 69
Copper Corrosion	Pass	ASTM D 69

Data on table represent average test results and are not to be used for specification purposes. The product user should make his/her own tests to determine the product's suitability for the intended use.
