PRODUCT SPECIFICATIONS

Rubber Tape

Rubber tape is used in conjunction with friction and vinyl tape for use around split bolt connections, terminal lugs and compression connectors up to 600 volts. It is also frequently used in waterproofing applications and can easily conform to irregular shapes and surfaces, yielding a void free, electrically stable buildup. It is compatible with all extruded dielectric cable insulations.

Features:

- UL listed
- · Weather resistant
- Low voltage
- Self-fusing

Product Dimensions			
PN#	Dimensions	Color	
822	3/4" x 22' x 30 mil	Black	

Performance Data				
Property	Value	Test Method		
Total Thickness	0,76 mm	UL-510		
Tensile Strength	3,0 MPa	UL-510		
Elongation at Break	500%	UL-510		
Dielectric Strength	20 kV/mm	UL-510		
Continuous Operating Temp.	80°C	UL-510		
Flammability	Pass	UL-510		
Weather Resistance	Pass	UL-510		

Data on table represent average test results and are not to be used for specification purposes. The product user should make his/her own tests to determine the product's suitability for the intended use.
